You made a wise decision when you purchased your T-51 color head unit. To keep it rolling out super copy with easy ink and water balance, the rolls should always be in excellent condition.

That's the reason for replacing rolls on a regular basis. Your T-51 will **print like new** year after year **if your rolls are like new**. Roller wear and deterioration are so gradual that many times they are neglected.

• The ink train soft rubber roller kit includes these rollers.
* Bearings and gears are NOT included.
